
Problem with listIpAddresses() in Exclude section

Posted by yaceck - 2008/05/03 16:38

I want to exclude my IP address but I can't enter Exclude section. When I try to do this, I see the error below:
Fatal error: Call to a member function listIpAddresses() on a non-object in /home/megabajt/ftp/administrator/components/com_joomlastats/admin.joomlastats.php on line 233

I am using:

JoomlaStats 2.2.1

Joomla! 1.5.3 running in compatibility mode

Does anybody have any ideas how to solve this problem?
